## EXPERIENCE

### Tata Consultancy Services, Mumbai

System Engineer • Sep 2017 - Jun 2019

Asst. System Engineer • Sep 2016 - Sep 2017

Part of the CMA (Cloud Applications, Microservices, and APIs) team. Worked with Johnson & Johnson, Honeywell, Telia on securing clients' backend services using Apigee. This involved Implementing Multiple Security standards like Basic OAUTH, OAUTH2.0, api-key using Apigee.

Integrated Apigee logging with elk, splunk, Azure Insights.

Major work on conversion of SOAP services to RESTful APIs in apigee and defining automation test strategy using Postman.

## PROJECTS

### Open Source Contributions

#### Mattermost-WebApp - [\[All Contributions\]](#)

- Implemented hotkeys for bold and italic markdown [\[Pull request\]](#).

#### Mattermost-MobileApp - [\[All Contributions\]](#)

- Implemented notification preferences under channel settings [\[Pull Request\]](#),
- Improved empty state screen for Recent Mentions, Pinned messages and Flagged post [\[Pull Request\]](#).

### Hacker News App using React Native

Demo : [youtu.be/woYhWfJ4cBo](https://youtu.be/woYhWfJ4cBo)

Code : [github.com/jp0707/hn](https://github.com/jp0707/hn)

Developed react native App for Hackernews. It displays a feed of top news items and allows viewing articles with collapsible comments within the app.

Implemented [infinite scrolling](#), [pull to refresh](#), [in-app browser](#), [screen navigation](#), [tab navigation](#), [nested and collapsable comment view](#).

### Minimal Reddit Web App using ReactJS /

Demo : [reddit-react.jyoti.dev](https://reddit-react.jyoti.dev)

Code : [github.com/jp0707/reddit-react](https://github.com/jp0707/reddit-react)

- Created a web app for Reddit using ReactJS. The homepage displays the list of subreddits to choose from, which further links to the subreddit page that displays top posts of that subreddit.

Implemented [infinite scrolling](#), [native sharing](#), [screen navigation](#), [voting](#) etc.

## EDUCATION

### St. Francis Institute Of Technology, Mumbai-India / B.E. in Information Technology

2012 - 2016, Mumbai

## Technical Skills and Tools

ReactJS, React Native, HTML, CSS, Javascript, SQL, Java, C, API development using Apigee tool, Linux, git, Bitbucket, Jira.
